Unstable ecocultural structures may be the basis of the "African culture", which according to some researchers has a retarding effect on the educational and developmental processes. This permits the player to shorten the subjective duration of long and uneventful periods of gameplay. Peter Lukasch even suggests that the sudden and unexplained cancellation of Der heitere Fridolin in after it had managed to weather the worst of the Weimar recession selling well even though its cover price rose in its first two years from one mark to marks. If we stick with this way of using these words, then under modern conditions of the philosophy of reflection there can be no metaphysical thinking in the strict sense but at most the reworking of metaphysical problems that have been transformed by the philosophy of consciousness. Below is a first list.
