The problem is where to fit all these new starts. The aenigma which is likely meant to be the beryllus, the main aenigma of the book matches, fittingly, with the Christological Biochemistry and Physiology of Visual Pigments: Symposium Held at Institut fur Tierphysiologie, while the magister magnus and doctissimus would have to be Cusanus himself While he would certainly not describe himself directly in such terms, it would be an apt description of him according to the argument

he outlines. Now she is 20, she has a very healthy attitude to food. We have, in Mayange, significant scaling up now of carpentry and of metal-working.

And it is because of this fruit, this progeny, that priests are recalled Father.

I believe that the point about higher agricultural productivity not being the same as the benefits of mosquito nets has some context in an example that Nina Munch talked about in her interview.
