Once a caterpillar has disintegrated all of its tissues except for the imaginal discs, those discs use the protein-rich soup all around them to fuel the rapid cell division required to form the wings, antennae, legs, eyes, genitals and all the other features of an adult butterfly or moth. Not all text or artwork looks better when it is antialiased. This revised version is a substantively different text: it no longer includes And Autonomous Kubernetes Clusters (The DevOps Toolkit Series Book 6) material, and incorporates a much-expanded new Troy section.
